

THE ALL NEW STAIRMASTER 4G

Answering the call for a StepMill that can fit into more spaces and reach more users, we are excited to introduce the much-anticipated StairMaster 4G. As the newest addition to the StairMaster family, the 4G delivers the same heart-pounding StepMill workout with a great calorie burn through a low-impact stair climb. Designed to fit perfectly into hospitality, boutique, and multi-housing training centers, the 4G has harnessed the quality members have experienced over the past 4 years with the 10G and the recently launched 8Gx. With a footprint of 54" x 29" and a height clearance of only 8 feet, the 4G is the solution this market has been missing.

DEVICE CONNECTIVITY

Our OpenHub 15" Embedded Console connects directly with Apple Watch and Samsung Galaxy Watch for real-time data sharing between equipment and watch. NFC technology allows for a simple tap to pair connection, making data tracking that much easier.

PRODUCT DESIGN FEATURES

Available with a variety of OpenHub console options, safety-stop sensor and a redesigned handrail system that supports multiple climbing positions and includes integrated speed and stop controls for a better user experience. Additionally, the service panel removes with 4 fasteners, allowing for easy access to drive train and electronics.
